

Natural Gas Pipeline New Mexico GAS COMPANY[®] AN EMERA COMPANY

December 2018 | nmgco.com

Use your senses to stay safe

New Mexico Gas Company is focused on providing safe and reliable natural gas service to your home and business. Our experienced engineering and operations experts carry out comprehensive programs for the safe design, construction and operation of our pipelines, as well as ongoing inspections. However, you play a part in natural gas safety too. You can use your eyes, ears and nose to stay alert to potential dangers.

Recognizing a Natural Gas Leak

LOOK – Do you see dirt blowing in the air near a natural gas pipeline? This could be a sign of a natural gas pipeline leak.

LISTEN – Listen for a hissing or roaring sound. This may be an indication of a natural gas pipeline leak.

SMELL – An additive, mercaptan, is used to give natural gas its very distinct odor – rotten eggs. This pungent smell is a warning sign of a possible natural gas pipeline leak.

CALL – If you suspect a natural gas pipeline leak, **leave the area immediately and call 1-888-NM-GAS-CO (1-888-664-2726).**

NMGC Employees Volunteer

New Mexico Gas Company employees volunteer all year round. This fall, employees and their family members volunteered to visit several residences in Albuquerque, Rio Rancho and Bernalillo to winterize homes of low-income senior citizens. Volunteer crews measured, fit and installed plastic window coverings, door seals, door sweeps and electric outlet coverings. Thanks to our volunteers, senior citizens will be warmer this winter season.

Pay It 4ward

New Mexico Gas Company is a proud partner of KOB-TV's Pay It 4ward campaign. You may have seen our Public Service Announcement regarding our own HEAT New Mexico charitable heating assistance program. NMGC works with the Salvation Army to administer the funds throughout the state. For every dollar donated, NMGC contributes \$1.50 to help income qualifying customers pay their winter heating bills. For more information on HEAT New Mexico, please give us a call at **1-888-664-2726**.

THE COST OF GAS

As a regulated utility, New Mexico Gas Company does not make a profit on the natural gas we purchase on behalf of our customers but passes the cost of natural gas from suppliers directly on to you. November's cost of gas is \$0.3042. The December cost of gas can be found as a line item on your bill beginning December 1st. Last December's cost of gas was \$0.3535. The estimated average home gas use for December is 123 therms and the estimated average residential gas bill for December is \$86.

We do not make a profit on the natural gas we purchase on behalf of our customers.
