

Get Started

At New Mexico Gas Company, we strive to help you save money and use energy wisely.

Our Energy Efficiency Rebate Programs help you make those recommended changes while getting hundreds, even thousands of dollars in rebates.

To learn more about any of our Energy Efficiency Rebate Programs, or to connect with contractors and download forms, visit:
nmgco.com/energy_efficiency

Multi-Family Programs

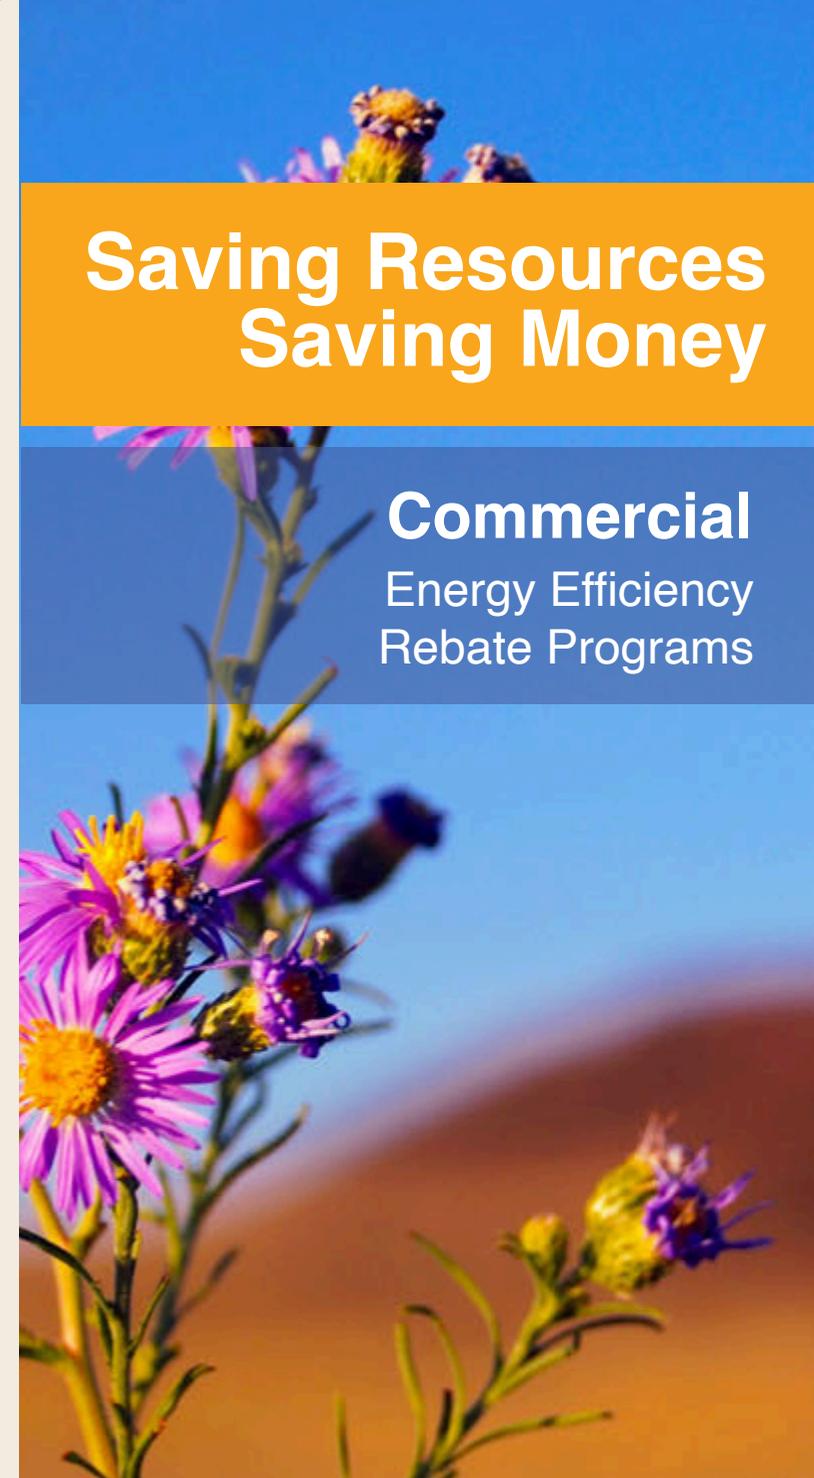

The multi-family (MF) program offers rebates for all eligible residential (in-unit) and commercial (common area or master metered) upgrades that create gas energy savings in all types of MF properties, whether market rate or low-income.

All MF properties with five or more units can get incentives for saving gas through energy-efficiency upgrades, including:

- Insulation
- Windows
- Furnaces and Boilers
- Showerheads/Aerators
- Weatherization
- Water Heaters
- Smart Thermostats
- Other custom measures that reduce natural gas consumption

Saving Resources Saving Money

Commercial Energy Efficiency Rebate Programs

A Natural Choice.

Efficient Buildings Program

Direct Install of Energy Saving Measures

Paired with custom or prescriptive improvements, these measures can save you hundreds of dollars per year in natural gas and water costs.

- Pre-rinse Spray Valves (1.1 gpm)
- Faucet Aerators (0.5 & 1.0 gpm)
- Showerheads (1.5 gpm)
- Exterior Door Weather-stripping
- Door Sweeps

Commercial Custom Incentives

Rebate:
Earn \$0.60-\$0.90 per therm saved (1st year savings)

Commercial Custom Incentives help business customers make smart, energy efficient improvements that reduce natural gas consumption and operating costs. These monetary incentives help make building envelope improvements, high efficiency equipment upgrades, and process improvements more affordable.

Commercial Prescriptive Equipment Rebates

Our rebates help business customers offset the cost of high efficiency natural gas equipment and save money every month with lower utility bills.

Space Heating

Furnaces: \$400 - \$600
(AFUE ≥ 90%, up to 225 MBH)

Space Heating Boiler: \$125 - \$600
(AFUE ≥ 85%, up to 300 MBH)

Water Heating

Storage Water Heater: \$400 - \$600
(EF ≥ 0.80/ Et ≥ 90%, up to 300 MBH)

Tankless water heater: \$125 - \$600
(EF ≥ 0.82 Et ≥ 90%, up to 300 MBH)
